PUBLIC LECTURE

5.45 pm – 7.00 pm

Stanley Burbury Theatre

University of Tasmania

Amid the accumulated detritus  
of our society, we seek  
bold ideas for a better world.

Join internationally acclaimed artist and cultural activist Chris Jordan as he explores the colossal waste generated by our mass culture.

Against the backdrop of his compelling photographs, Chris will explore how effective waste management can contribute to a solution for climate change.

*'When we reflect on a difficult question in the absence of an answer, our attention can turn inward, and in that space may exist the possibility of some evolution of thought or action.'*
